

ANTHC Organizational Structure

December 2006

The Alaska Native Tribal Health Consortium (ANTHC) is organized to ensure internal alignment, organizational efficiency, and customer service. The three ANTHC front-line divisions are the Alaska Native Medical Center, Division of Community Health Services, and Division of Environmental Health and Engineering. Consolidated administrative and business functions support and strengthen the front-line health services divisions as well as other Native health organizations in the Alaska Tribal Health System.

ANTHC departments and services are listed below, starting with support services.
