

EXAMPLE "DEMONSTRATION OF APPROVAL LETTER"

Fill this out when your plan is finished and approved by the community and/or Council. This letter, once signed, can go at the front or back of your plan. Note that this is an example only and you can make any changes to make it fit your community. It is important when applying for funding to have an "approved plan".

Note, it is optional to also have the City Council approve this Plan. By doing so, it can pull more weight in the full community. It provides authority over non-Tribal members for any ordinances in the plan. It can be of use also in providing funding. Each community situation is different in regards to Tribal and City governments, consider what is most best for your community.
