

AFHCAN MOBILE

AFHCAN Mobile is an app that enables health care providers to consult on, reply to, and create new telemedicine cases wherever and whenever needed.

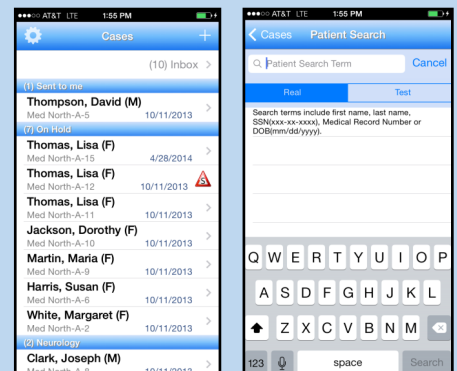

Get Started with Free Download

- Look for the AFHCAN Mobile app on the App Store or Google Play
- Easily set up a four digit password to enable rapid log-in for future sessions

Quickly Create and Send Cases

- Easily and securely create cases with or without pictures
- View existing cases in your AFHCAN inbox at a glance
- Use in-app notifications to customize your alerts

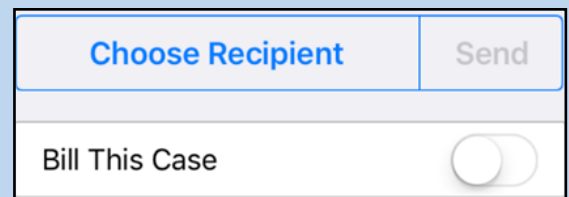

Add Photos in Real Time

- Photos can be added to the case from within the app
- Photos will not be saved to the camera roll, just the case!

Easily Send Cases and Export to EHR Billing

- Users can send cases within AFHCAN system
- One-step export to EHR billing queue (if used by your organization)
