WELCOME Addiction Medicine ECHO Training

The session will begin promptly at <u>12 pm</u>.

Please <u>mute</u> the audio on your device.

Sessions take place <u>Thursday on the 2^{cd}</u> <u>and 4th week of the</u> month.

Please connect your <u>camera</u>.

Need technical assistance? Call 907.729.2622 or text your phone number into the chat.

Recording

We will record the **didactic portion** of every session. After the session, the didactic portion of this clinic will be available on the ANTHC Addiction Medicine ECHO page.

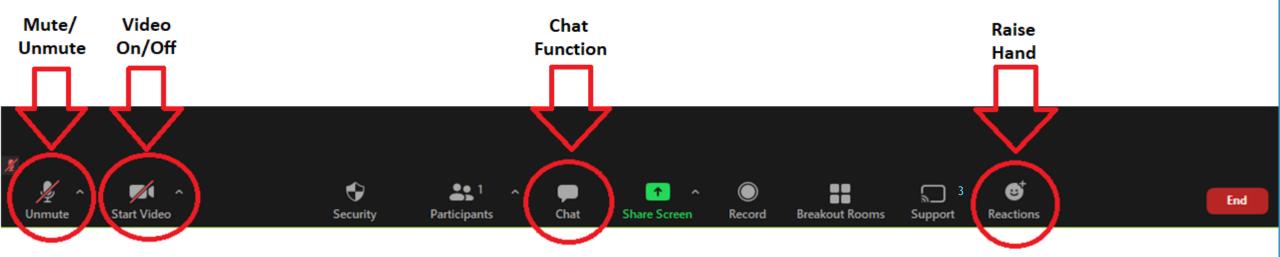

By participating in this clinic you are consenting to be recorded.

If you do not wish to be recorded, please email <u>behavioralhealth@anthc.org</u> at least one week prior to the ECHO Clinic you plan to attend.

Some Helpful Tips

- Please mute microphone when not speaking
- Use chat function
- Position webcam effectively
- Test both audio & video

Need technical assistance? Use the chat function or call 907.729.2622

ANTHC Clinical ECHO Series

Approved Provider Statements:

In support of improving patient care, Alaska Native Medical Center (ANMC) is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

Contact Hours:

ANMC designates this activity for a maximum of 25 contact hours, including 12 total pharmacotherapeutics contact hours, commensurate with participation.

Financial Disclosures:

None of the presenters and planners for this educational activity have any relevant relationship(s) to disclose with ineligible companies whose primary business is producing, marketing, selling, re-selling, or distributing healthcare products used by or on patients.

Approved for 1 CHAP CE

Conflict of Interest Disclosures:

None of the presenters and planners for this educational activity have any relevant relationship(s) to disclose with ineligible companies whose primary business is producing, marketing, selling, re-selling, or distributing healthcare products used by or on patients.

Requirements for Successful Completion:

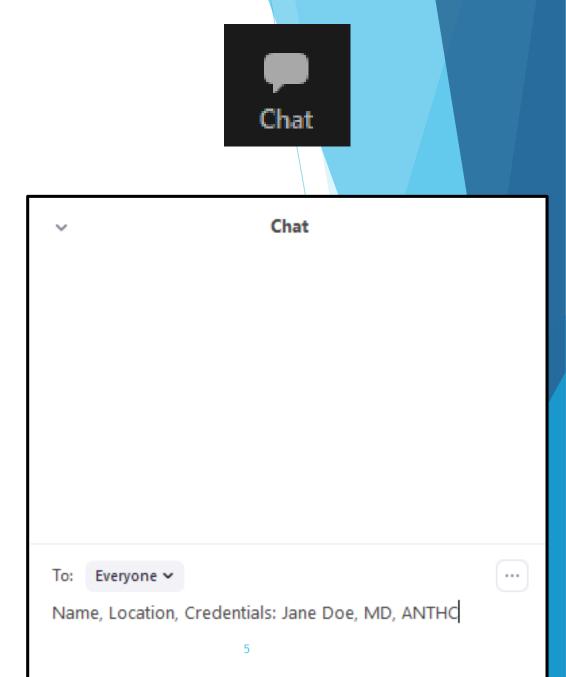

To receive CE credit be sure you are included in attendance record as directed by the facilitator/session moderator, and complete the course evaluation or post session survey via this link: https://forms.gle/QhwCeGTf4zLNwpBX7

For more information contact Jennifer Fielder at jlfielder@anthc.org or (907) 729-1387

Introductions

Addiction Medicine ECHO

- Please introduce yourself in the chat :
 - Name
 - Location
 - Profession/Credentials
 - Note: The chat will be saved as our attendance record for continuing education credits.

Chronic Pain and Non-Opioid Pain Management

Donald Teater, MD, MPH
 Pain Management and Addiction Specialist
 SouthEast Alaska Regional Health Consortium (SEARHC)

Conflict of Interest

I have no conflicts of interest.

Objectives

Participants will describe three mechanisms of chronic pain

8

Participants will name two non-opioid medications to treat chronic pain

Chronic Pain and Non-Opioid Pain Management

<u>Pain</u>

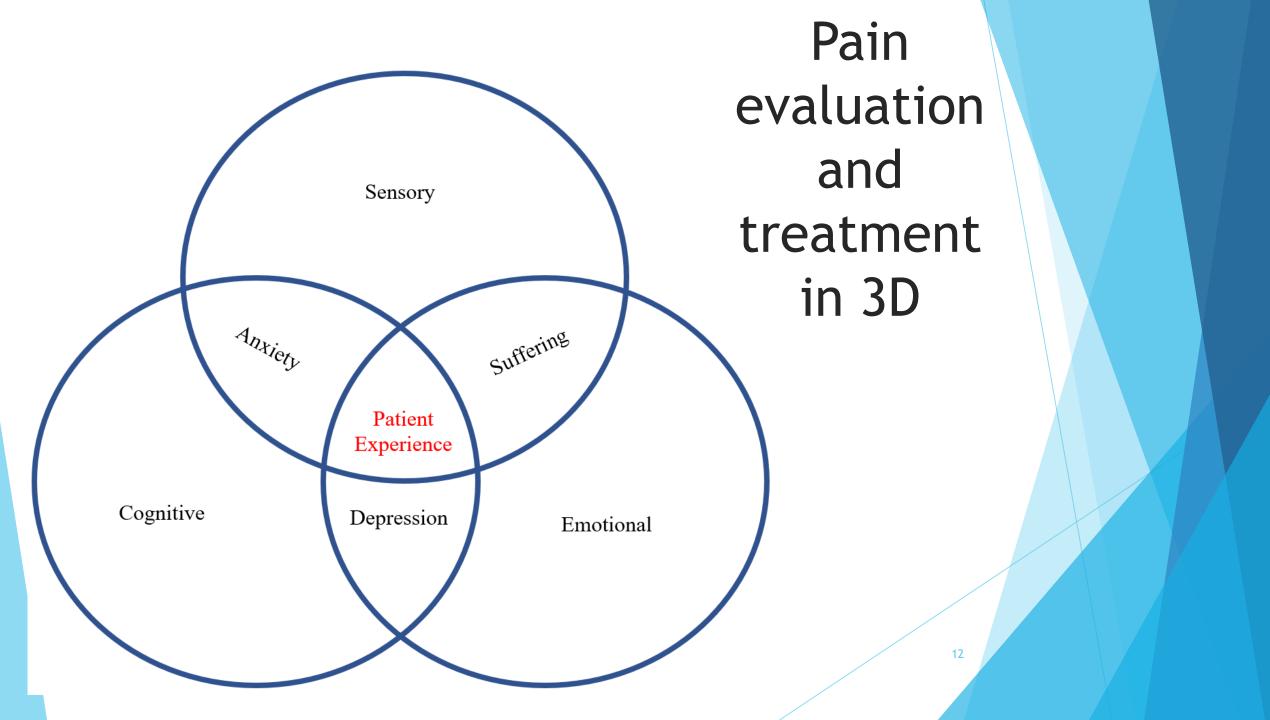

An unpleasant sensory and emotional experience associated with, or resembling that associated with, actual or potential tissue damage

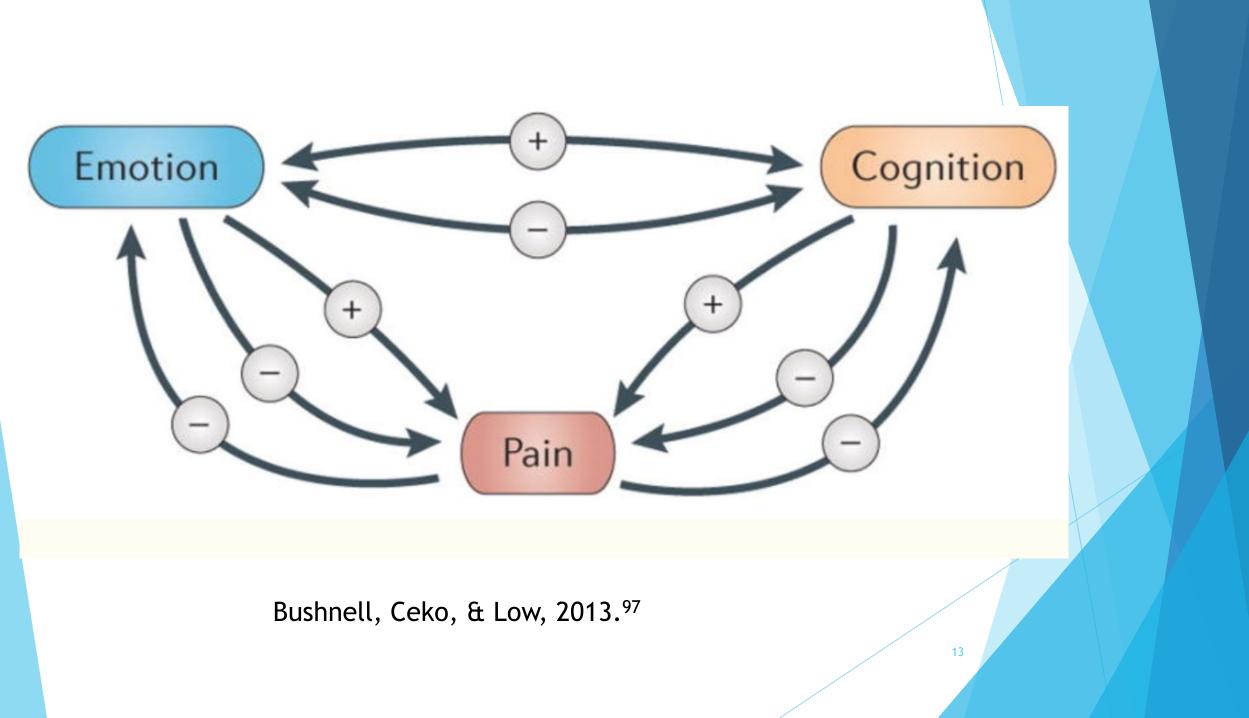

International Association for the Study of Pain (2020)

An unpleasant sensory and emotional experience associated with, or resembling that associated with, actual or potential tissue damage

International Association for the Study of Pain (2020)

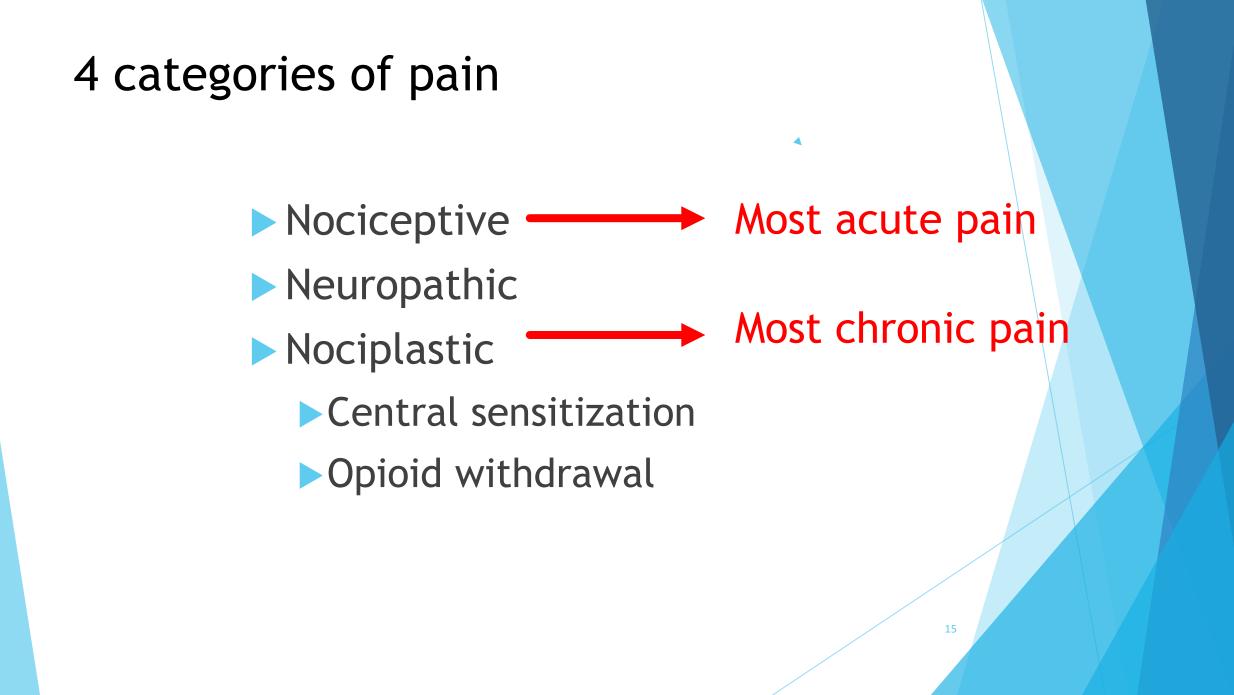

3 categories of pain (also called mechanistic pain descriptors)

Nociceptive

- Neuropathic
- Nociplastic
 - Central sensitization

14

Opioid withdrawal

Common nociplastic pain syndromes

- Fibromyalgia
- Chronic headaches
- Irritable bowel syndrome
- Chronic neck pain
- Chronic back pain
- Interstitial cystitis
- All chronic pain???

Mixed pain

Many people will have:

Nociceptive pain (arthritis) AND nociplastic pain

17

Neuropathic pain AND nociplastic pain

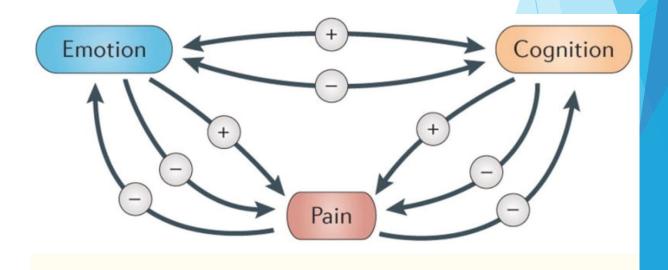

Treatment of nociplastic pain

- Patient involvement in their treatment and recovery
- Behavioral therapy
- PT and OT
- Medications limited effectiveness
- OMT/chiropractic
- Exercise
- Sleep hygiene

- Complementary
 medicine
- TENS unit
- Altruism
- Having fun
- Avoid imaging if possible
- Give them hope!
- Your words matter!

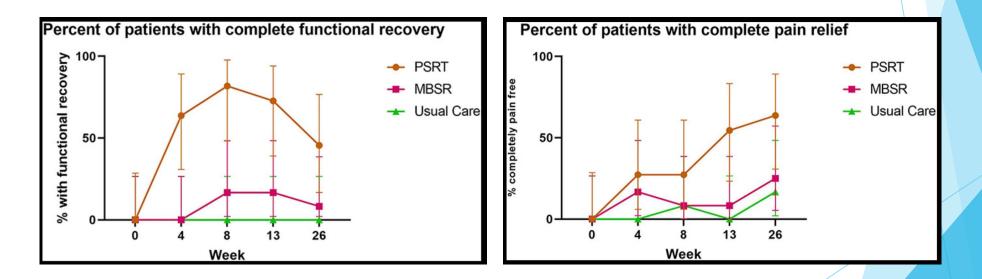

Behavioral heath treatment

- Cognitive Behavioral Therapy (CBT)
- Pain Reprocessing Therapy (PRT)
- Empowered Relief education
- Psychophysiologic Symptom Relief Therapy (PSRT)

Psychophysiologic Symptom Relief Therapy

12 week (38 hrs total) course teaching the patient pain neuroscience education, mindfulness, visualization, increase activity.

Physical and occupational tx

- Improve strength and flexibility
- Increase exercise and exercise tolerance
- Pain neuroscience education
- Extinction of the connection of movement with pain

Medications

- SNRI antidepressant medications particularly duloxetine
- TCAs or cyclobenzaprine (qhs only)
- Gabapentinoids
- NSAIDs and acetaminophen (if there is a nociceptive component)
- Buprenorphine (other opioids are contraindicated)
- Low-dose naltrexone
- Ketamine? maybe, maybe not

Others

- OMT/chiropractic
- Exercise
- Sleep hygiene
- Complementary medicine
 - ▶ Yoga, Tai Chi

Others -

- Have fun
- Increase social activity
- Altruism help others

24

Don Teater MD, MPH SEARHC donaldt@searhc.org

Case Presentation

Project ECHO's goal is to protect patient privacy

To help Project ECHO accomplish that goal, please only display or say information that doesn't identify a patient or that cannot be linked to a patient.

References: For a complete list of protected information under HIPAA, please visit www.hipaa.com Thank you for joining us today. We appreciate your participation and hope to see you at the <u>NEXT ECHO Session:</u> March 10, 2022 from 12pm -1 PM

You will be receiving a follow up survey that we hope you will complete to help us improve. If you are requesting continuing education credits, you will be required to complete the survey to receive your CEs.
