

2023 ALASKA INDIGENOUS RESEARCH PROGRAM

Are you Alaska Native or American Indian and interested in health research?

Are you a researcher or health professional interested in Alaska Native health research?

Looking for an exciting way to start out your summer and experience campus life?

PROGRAM INFORMATION:

Since 2019, the Alaska Indigenous Research Program (AKIRP) has provided Indigenous-centered, cross-cultural research education and training to Indigenous and non-Indigenous students, researchers, health professionals and scientists.

PROGRAM GOAL:

AKIRP is a collaboration between the Alaska Native Tribal Health Consortium (ANTHC) and Alaska Pacific University (APU) to increase the health research capacity of Alaska Native and American Indian people and communities.

PROGRAM OBJECTIVES:

- Understand Indigenous worldviews and apply the Two-Eyed Seeing framework.
- Conduct equitable and ethical health research with Alaska Native and American Indian people and communities.
- Apply appropriate research methods (Indigenous and Western).
- Understand historical and cultural context of health research.

CHOOSE YOUR PROGRAM EXPERIENCE:

-  **Week One** | Advanced Research | May 8-12
Designed for experienced researchers and health professionals
-  **Week Two** | Research Ethics | May 15-19
Designed for all levels of research experience
-  **Week Three** | Introductory Research | May 22-26
Designed for those interested in health research
Participants should attend selected weeks in their entirety.
