Prioritization List Updated as of April 25, 2025

* Due to absent or outdated PCE data, avoided cost of fuel was adjusted or derived from most recent PCE Year or alternative sources.

** Due to incomplete American Community Survey (ACS) 2023 data, financial capability data cross-referenced against previous ACS Years through 2017. Corrected April 9.

*** Incomplete or corrected data affects both Financial Capabilities Score and Energy Cost Scores.
